PROFILE

Enthusiastic undergraduate pursuing a BEng in Software Engineering at London Metropolitan University, with hands-on experience in a wide range of programming languages and frameworks such as .NET, JavaScript, ReactJS, and Java. Proficient in both front-end and back-end development with a strong command over the MERN stack, SQL (MySQL, SQL Server), and NoSQL (MongoDB) databases. Additionally, experienced in mobile app development using Flutter. Demonstrated ability to work effectively in collaborative environments with strong communication skills, ensuring efficient and clear interactions with team members and stakeholders. Eager to leverage technical skills and contribute to innovative projects in a software engineering role.

PROFESSIONAL EXPERIENCE

Graphic Designer

Worked at Aurora Creation & Studio Production as a Graphic Designer (Part time)

2022 – 2023
Galle, Sri Lanka

EDUCATION

BEng (Hons) in Software Engineering

London Metropolitan University

03/2024 – present
UK

Higher Diploma in Computing and Software Engineering

Cardiff Metropolitan University

05/2022 – 01/2024
UK

GCE A/L

G/Richmond College

Technology stream and obtained 3 'C' passes.

2019 – 2021
Galle, Sri Lanka

CERTIFICATES

- Introductoin to Cyber Securiy in Cisco Networking Academy
- Cyber Security Essentialial in Cisco Networking Academy
- Python for Beginners in University Of Moratuwa

PROJECTS

DD-footware E-Commerce with REST API

- Developed the front-end of an e-commerce website using HTML, CSS, Bootstrap and JS
- Developed the back-end using Node.js.
- Communicate with back-end using the REST API.
- <https://github.com/kavinduindumina/DD-footware> 🔗

Agriculture Website Front-End Development

- Developed the front-end of an Agriculture website using HTML, CSS, Bootstrap and JavaScript for education purpose.
- Implemented responsive design principles for optimal viewing on various devices.
- Collaborated with team members to integrate interactive features and improve user experience
- <https://agrofarmflow.ooowebhostapp.com/> 🔗

User Management CRUD System

- Developed using MERN Stack
- Developed the front-end using Vite+React and back-end using Node.js.
- Connected to MongoDB.
- <https://github.com/kavinduindumina/User-Management-CRUD> 🔗

Java POS System

- Developed the application using Java, with the user interface designed in Java Swing.
- MySQL database connectivity for secure and reliable storage of product, category, and sales information
- <https://github.com/kavinduindumina/POS-System>

KEY COMPETENCIES

Languages

C#, Java, JavaScript, PHP

Concepts

Object Oriented Programming, Rest API

Infrastructure

Git, GitHub, Linux

Technologies

.NET, React, Flutter, MySQL, SQL Server, MongoDB, Bootstrap, Angular, NodeJS

Tools

Vs Code, IntelliJ Idea, Visual Studio, SSMS, Postman, Illustrator, Photoshop, Figma
